

Girl, 14, Killed As Car Leaves Highway

Mary Nagy Loses Life
On Route 674; Sister,
Driver Suffer Injuries

Seven years ago, two young Madison sisters, Mary and Virginia Kathleen Nagy, were struck by an auto while walking across Madison avenue and escaped serious injury. On Saturday, they again were involved in an auto accident together, but 14-year-old Mary Nagy suffered fatal head injuries.

The sisters were passengers in a car driven by Billy Gerald Callahan, 21, St. Louis, that apparently struck a brick while headed toward Madison on Route 674 at "dead man's curve" at 6:15 a.m. Saturday. The car overturned, and the girls' 12th birthday victim of the year, triple the number of fatalities in a similar period of last year.

State police were informed that Kathleen, 16, and her sister were at Mavis' Lounge, 489 Collinsville avenue, East St. Louis, and said they needed a ride to their home. Callahan, who is married and resides at the Blue Bonnet Motel, St. Louis, agreed to drive them here.

When the auto struck the brick in the roadway, its rear wheel and the vehicle went out of control, leaving the pavement and rolling over after the third embankment. The girls' bodies were ejected from the car, and three wooden retainers were left on the road.

Two Admitted To Hospital
Callahan is being treated at St. Elizabeth Hospital for bruises and injuries to the face, hands, right leg and back. Kathleen is being treated at the same hospital for a broken arm.

Teen Nagy was admitted to the hospital for treatment of possible head injuries and dizziness. Mary Nagy was pronounced dead upon arrival at the hospital in an ambulance.

The girls' parents are Mr. and Mrs. Mitchell Nagy, 906 Grand avenue, St. Louis. Mary Nagy, 14, was killed in a car crash on Saturday afternoon at 6:15 a.m. in the intersection of Madison and Main streets. The car was driven by Callahan, who was traveling southbound on Madison.

Federal authorities were called in Saturday afternoon after an initial report that the car driven by Callahan was stolen. A later report indicated that the car was not stolen and an investigation is proceeding.

An inquest is to be conducted (Continued on Page 2, Col. 1)

19-Month-Old Boy Drowns In Cesspool At Home

A 19-month-old Mitchell child was found drowned, submerged in three feet of water in an open cesspool at his home at 6:30 p.m. Thursday in a search by his parents.

Deputy Coroner Henry Pieper, who will conduct an inquest, said James Aaron Miller, son of Mr. and Mrs. Norman Miller, 137 Trocadero lane, was discovered missing when his father arrived home from a grocery store. The mother had been told by the child's playmates that the boy was with his father when he left the house. The father had taken the boy to the store for a loaf of bread while the mother was preparing supper, and asked where his son was when he arrived home.

The recently excavated cesspool had been filled by the heavy rains. The child did not respond to revival efforts by Mitchell firemen.

Born in Granite City, the infant is survived by his parents, two sisters, Norma, 7, and Mrs. Chester (Peggy Lee) Dodge, 17, and Robert, 13; and his grandparents, Mrs. Edna Miller, 60, and Mrs. Ruth Converse, Granite City.

The child's father is employed as a chairman of the Lucile Steel Co., Madison.

Funeral services were held Saturday afternoon at a Granite City funeral home, with burial at St. John's Cemetery. Arrangements are given in the obituary column.

Thieves' Tastes Vary; Mink Stoles, Mixer Are Missing

Thieves were active in the Quad-Cities area over the weekend stealing a wide selection of items, varying from mink stoles to a concrete mixer. Eight thefts were reported to local authorities.

Site Group To Study Industrial Park Feasibility

Top priority for information on currently available industrial sites was assigned by the Industrial Site Acquisition Development Committee at an organization meeting Thursday afternoon at the C. O. Henry Hotel.

Additional facts are necessary before the group can determine whether it would be desirable for an arm of the Chamber, possibly an industrial park corporation, to begin obtaining land.

A discussion brought out that when such a step is taken, it is generally in combination with other sites, utilizing land already acquired by railroads, utilities and private real estate firms.

Major purposes of such programs are to preserve the lands for industrial rather than residential use, arrange for access routes and assure uniform prices, avoiding excessively high land costs. High prices in themselves are a deterrent to new and expanding firms and also are taken as an indication that a community does not welcome new industry, it was noted.

List Of Available Sites
Dr. Mary Mege, who has been employed to compile information for an industrial development brochure, will be asked to give early attention to a report on what sites are available in this area, their size, location and ownership and other pertinent details.

In addition, the Chamber of Commerce will contact other communities and the U.S.C. of course on financing methods, for consideration if site acquisition is deemed advisable. It was reported that financing usually is handled through formation of a corporation responsible to the Chamber board of directors.

Chairman C. K. Hohlitzel, president, and members attending were Harold R. Fischer, W. J. Hoelcher, Henry D. Karandjoff, John McBride and Carl A. Rant. Also present were two C. O. officials, Paul H. Lichtenberger, president, and Harlan Dobry, manager.

Late Operation Of Venice Taverns May Be Halted Due To Growing Violence

William Smith Killed,
Patron Wounded During
Gun Battle Yesterday

An exchange of gunfire outside William "Bill" Smith's tavern at 718 Main street, Venice, at 3 a.m. Sunday killed the 57-year-old proprietor, ending his life at 4:05 a.m. at St. Elizabeth Hospital and climaxing a weekend of violence along the row of Main street taverns.

Attributed to a misunderstanding, the gun battle also resulted in a wound in the right hand suffered by Thomas Henry Lee, 27-year-old of St. Louis. Charged with murder for firing into Smith's right chest, he was transferred in fair condition from the local hospital yesterday to the St. Louis City Hospital to undergo surgery.

The murder warrant was issued Sunday afternoon by Venice Police Magistrate Joseph Edwards on a complaint by Assistant State's Attorney John H. Gitchett following questioning of Lee's five companions and other witnesses by Gitchett and Venice police. An inquest will be held by Deputy Coroner Francis Lehey.

Lee was ordered held without bond, and the five St. Louisans listed as material witnesses were released on \$1000 property bonds. They had been prevented from leaving the area in an auto before the arrival of police by Smith's son, Charles Smith, Madison, also associated in the tavern, who guarded them with a gun in each hand. Smith was a resident of 444 Lincoln avenue, Venice.

Earlier Drinking
The St. Louisans had been drinking and dancing in a Bar, Mo., tavern and ordered beer upon arriving at the Venice establishment, statements to police indicated.

When John R. Heffner, 26, picked up a chair and began dancing about the older Smith asked him to put the chair down. When Heffner called him a "little old fart," Smith said, "I'll take care of you."

The group began to leave but Lee went back for a pack of cigarettes. It was related, Charles Smith, who had been away obtaining coffee, returned with the coffee in his hand. Apparently mistaking Lee for Heffner, Smith swung his fist at Lee, hitting him in the face. Lee swung back, the police were told.

Swings Wooden Club
Smith's father was seen with a large wooden club and the younger Smith took it and began striking Lee. William Smith and Lee apparently left the bar to obtain guns. Smith, a 38-caliber pistol and the patron's 22-caliber pistol.

When they returned to the area, shots rang out and Smith and Lee were wounded. Lee was not discovered until he had been taken to the police station.

Police said there were five spent shells and one live shell found in the area. Smith was taken to St. Elizabeth Hospital Sunday morning in the nearby McKinley Bridge parking lot. Bobby Lee Wenger, 27, said he had thrown it there after it was thrown or fell into his lap after the shooting. Smith was taken to the police station.

Man Wounded On Main Street

Two men are being sought for questioning in a mysterious shooting at 5:40 a.m. Saturday in the 300 block of Main street, Venice. Roland Aubuchon, 30, St. Louis, was admitted to St. Elizabeth Hospital in fair condition for treatment of a bullet wound through the left thigh.

The two men were seen by witnesses as they entered a taxicab in front of the 316 Club tavern, 316 Main, and drove away. Two shots were heard. There was no front license plate, indicating that it may have been a Missouri car.

Aubuchon fell down in a parking lot between the 316 Club and Showboat tavern, 400 Main street, after rounding the corner from the south side of the 316 Club. He was seen by witnesses gathering his strength again, he walked north on Main street along the sidewalk but fell three more times. Police were summoned and he was taken to the hospital by ambulance.

During questioning, Aubuchon was unable to relate details but recalled being chased by a man who grabbed the front of his shirt. Aubuchon said he had been drinking heavily.

Mail Destroyed In Mailbox Fire

An unknown number of letters and mail was reduced to ashes by a fire inside a drive-in mailbox at St. Clair and Wayne avenues at 12:36 a.m. Saturday.

Stressing seriousness of the act, a federal offense, Postmaster Theodore Overbeck said persons depositing mail in the box after 5 p.m. Friday should assume that it was destroyed. Excitement over several letters salvaged from the box.

Nothing that some of the mail might have included Mother's Day cards and gifts, Overbeck warned that stern prosecution occurs when such vandals are apprehended. He said a match or cigarette apparently was thrown into the box from a passing car. Overbeck cited a similar case earlier this spring in which a mailbox was destroyed.

Granite City firemen also were called at 9:58 p.m. Friday to the home of Margaret Barker, 2138 Cleveland drive, where her auto sustained about \$100 damage to the front and back seats. A cigarette thrown into the car by a passerby was blamed for the blaze.

Auto Muffler Charge
A charge of operating a car with an improper muffler was filed by Granite City police at 2:40 p.m. Friday against Harold D. Gann, 2705 Myrtle avenue. He posted his driver's license pending a hearing.

Council Meets Tonight On Changing Closing Law From 4 To 1 A.M.

Venice's role as an early-morning playground for pleasure-bent St. Louisans may be doomed, following weekend shooting incidents that killed a tavern operator and wounded two other men. A decision to end late tavern hours may be reached at a special city council meeting of 7:30 tonight.

Venice Mayor John E. Lee told the Press-Record yesterday that the meeting will be held to consider elimination of Class D liquor licenses, which permit establishments to remain open until 4 a.m. instead of 1 a.m. in return for payment of \$200 in addition to the regular yearly license of \$500.

Taking cognizance of the violence that has become associated with some local taverns, particularly along Main street, Mayor Lee described action as a "must" to go. "The all-night operation is generally regarded as a factor in attracting customers from Missouri, where earlier tavern closing is mandatory.

Dr. Lee said plans were made for tonight's meeting because, if there is no remedial action, "something's going to be happening to the innocent persons being harmed when shootings become commonplace.

Busy Weekends At Jail

The main street district has been the scene of late-night violence for some time, and has been the cause of much concern in the Venice jail on many weekends due to disputes and fights.

A proposed 24-hour operation, disregarding even the 4 o'clock closing time, have occurred often and on many occasions in the past there have been black jacks, poker and other forms of gambling as an extra lure to the tavern.

Tavern operators have played an important role in past years, and the victim of yesterday's fatal shooting — William Smith — successfully carried out a police assault on a Venice alderman on Dec. 11, 1955. Seeing that the council, after a tavern in the 300 block of Broadway, Smith struck him in the face, knocking him into a sitting position in a nearby chair before he was restrained by others in the tavern.

At the time, Smith was operating the 316 Club tavern at 316 Main, and another alderman charged that the attack was retaliation for a proposed crackdown on tavern gambling. Smith later acquired the 718 Club tavern, which he was operating at the time of his conference.

H. D. Karandjoff, local banker and chairman of the commission, said Friday that letters have been mailed to all members of the commission advising them of the appointment of the members of cities in Madison and St. Clair counties will join the commissioners in the conference with the governor.

A delegation of at least 20 commissioners and mayors is expected to take part, Karandjoff said, adding, "The real task before us is to develop our country toward the passage of this beneficial bill so that the Horse-shoe Lake State Park may become a reality."

Arrangements for the governor's conference will be made by State Rep. Lloyd "Curly" Harris, Ralph T. Smith, Paul Simon and Frank Holten. The bill, requesting \$3,844,350 state funds for development of a 773-acre state park was introduced in the House two weeks ago.

Rain Damage To GC Streets Set At \$8000 To \$10,000

The recent deluge of rain not only caused untold damage to private property but also played havoc with city streets that had been badly damaged during the severe winter. It was learned last week from Supt. of Streets William Warfield.

Water damage was set at \$8000 to \$10,000, mostly on oil and tar streets, but there also was some damage to paved streets.

Street Supt. Warfield said his office was besieged with emergency repairs. Rains caused most street excavations to settle and barricades were placed at dangerous locations.

Cracked During Winter

Warfield explained the streets were badly cracked by expansion and contraction during the winter freezes and thaws and that water standing in the streets caused the roadways to crumble. Because of inclement weather this spring, the street department has been able to do only a minimum of patching and sealing in advance of the regular summer street maintenance program.

"We had planned to tear up and rework only one street this summer, but now with all the rain and the damage that occurred over the weekend, it looks like it will be dozens," the street superintendent said.

William Smith Killed

(Continued from Page 1)

Both the gun and the auto were owned by Heffner, who had brandished the gun earlier while at the Baden tavern, his companions related. It was not immediately established whether Lee obtained the gun from Heffner or the glove compartment of the car.

Others in the group were Wengler's wife, Margie, 29; Lee's wife, Connie, 24; and Mrs. Lee's brother, Lawrence H. Parks, 21.

The Wenglers were captured a short distance away from the tavern by Madison and Venice officers.

The Venice department had obtained assistance from Madison officers upon being informed

of the shootings. State Police Capt. Emil Toftant, commander of the local district, assisted Chief Robert M. Trower at the Venice station yesterday.

It was learned today that the bullet which struck Smith entered his chest slightly to the right but was deflected by a bone to the heart.

Investigation showed that between three and five bullets were fired from Smith's gun before he collapsed. Lee is alleged to have fired first.

Born in Cambridge, Ohio, Mr. Smith was a Venice resident for a total of 33 years.

Surviving are his wife, Mabel; three sons, Benjamin, Denver, Colo., Russell, Columbia, Ill., and Charles E. Joyce Dineff Wins JC Art Scholarship Contest

An oil painting by Joyce Elaine Dineff, Granite City high school senior, won the grand prize ribbon among 150 originally-created artwork entries in judging Friday at the Granite City Trust and Savings Bank.

Judges deliberated for more than an hour before agreement was reached. Miss Dineff's winning entry, a Cezanne-style portrait, netted her a \$275 in the contest sponsored by the Granite City Jaycees.

A Jaycee spokesman said the club will send a \$200 check to the college of her choice and that the Trust and Savings Bank will make a \$75 contribution.

Miss Dineff, an art major, will graduate in January 1962. In the Art Seven category in classes at the school, she is a twin daughter of Mr. and Mrs. Ted V. Dineff, 1628 Maple street.

Two other winners were chosen. They included Cheryl Lynn Lockhart, also a senior, who won a first superior award, with her experimental creation of abstract art, and Carter

Talk Stresses Dangers Of Poisoning Accidents

A talk stressing dangers of accidental poisoning in the home was given by Bernard Miller Jr. of Miller's drug store, a member of the Madison-St. Clair county Pharmacy Association, during the Noonday Optimist Club meeting Thursday.

Miller's talk, based on statistics and illustrated with color slides, listed other poisoning fatalities due to accidental poisoning occur among children up to ten years old.

Miller advised that drug preparations be placed outside the reach of small children or in locked cabinets, and suggested that a parent crawl on the floor to determine hot spots.

He said adult aspirins accidentally swallowed by children are the major cause of poisonings and listed other preparations which should be kept from reach. They include sedatives, tranquilizers, cough medicines and oil of wintergreen.

Also he said, other substances such as lye, paints and kerosene should be stored in safe places.

For treatment, he said patients should go to St. Elizabeth Hospital, where a poison control center is maintained to dispense antidotes for many types of poisonings. Mr. said there is no single antidotes for all types.

His talk was the first to be delivered at organization meetings in the Quad-Cities. It is part of a program sponsored by the bi-county group to stress safety in storing preparations.

Fifty members were present at the meeting, held following attendance at the opening of the Big Top Bowl's 300 Room.

New Shop Room, Equipment For Central Junior High

About \$6000 is to be expended by the Granite City school district in providing equipment for the vocational shops at Central junior high school, which is to be expanded from a seventh grade center to handle both seventh and eighth grades in the fall of 1961.

In addition to the equipment, \$400 or \$500 is expected to be spent on associated electrical and plumbing work. One new shop room is planned, with five major subject areas to be offered.

Bids on the equipment currently are being sought.

In announcing plans for the Central building, Supt. Harold M. Kaiser has related that "considerable improvements were made to the facilities at Central school last year."

Lockers, Repairs, Blacktop
"For example, lockers were installed and general repairs to the building were completed, including painting, window shades, new restrooms, new floor repairs. Also, the outside of the building was improved by blacktopping areas adjacent to the school."

Under present plans, Central will have an enrollment of 1338 about double the present number of pupils there. The projection of September's turnout includes 322 seventh grade children and 313 eighth grade youngsters, with 13 special students.

Coolidge junior high school's anticipated enrollment of 1338 consists of 326 in the seventh grade, 369 in the eighth grade and 643 in the ninth grade.

Prather junior high, the 746 estimate includes 224 in the seventh grade, 212 in the eighth grade and 310 in the ninth grade. This year's total is made up of 1441 at Coolidge, 744 at Prather and 516 at Central.

"Combined capacity of Coolidge and Prather is 2219. Therefore, it is necessary to house the additional group of approximately 600 pupils at Central."

Same Attendance Boundaries
"By having some seventh and eighth grade pupils at Central, it is possible to have a more reasonable teaching situation at

Prather and Coolidge. The attendance boundaries will remain the same for the 1961-62 school year; the only change will be Central will continue to keep the present seventh grade through the eighth grade," Dr. Kerner says.

"As indicated in the enrollment analysis, it is absolutely necessary to construct the seventh graders at Central for their eighth grade education. In order to do this, however, there are some changes that must be made to the building facilities to provide equal educational opportunities at Central as are now provided at Prather and Coolidge."

"The changes necessary to create equal educational opportunities at Central must be made in the area of shops. At present one industrial craft room is provided."

Metal, Drafting, Electricity
"New curriculum demands require one additional room and modification to the existing industrial crafts. The industrial craft room will be made into two rooms, including equipment areas for wood, metal and industrial crafts."

"The additional room will be used for metal, drafting and industrial crafts. Provisions must be made for additional plumbing facilities."

Of the \$6000 proposed equipment purchasing, \$1057 remains in the 1960-61 budget allocation and is to be used prior to the end of the fiscal year June 30. The remaining amount needed is to be placed in the 1961-62 budget.

Equipment List
Equipment in the combination metal and woodworking shop created from the present room is to include a storage cabinet, soldering bench, forge, grinder, drill press, two grinders, one stake plate table, machine tables, tool cabinet, drill press, four station bench, two tool cabinets, table saw, band saw, jointer, lathes, grinder and jig saws.

The new craft and drafting shop layout will include benches, drawing board storage

Collinsville Clips Madison In District Finale; Roxana Hurler Turns In No-Hitter

Collinsville, capable of no better than a sixth-place finish in the seven-team Southwestern baseball conference this spring, won a berth in the Belleville regional tournament Thursday afternoon by defeating Madison 7-3 in the finals of the Collinsville district tournament.

The Kahoks outpitched Madison only 8-7, but Trojan Coach Earl McClanahan, with an unseasonable spring campaign coming to an end, watched his defense misplay several routine flyballs into extra-base hits. "They don't show up in the line scores," he said, "but they were errors—mental errors."

The Kahoks played the role of opportunists well. A pop fly dropped for a base hit in the first inning, and Fred Rickard cracked a triple up the middle to score the first run of the game and then scored himself on Bob Simpson's sacrifice fly.

Collinsville took a 5-0 lead by adding three more runs in the top half of the fourth on a leadoff single by Fred Rickard, Simpson's pop fly double — another ball which McClanahan felt might have been caught — and two more singles.

Score Three In Fourth
Madison, which had the Kahok starter Louis Cargnino in trouble twice in the early innings but could not score, finally broke the ice in the home half of the fourth.

John Onessy and Josie Pitcher Dan Trotsky opened with back-to-back singles. After a strikeout, Mick Graville was safe on Cargnino's wild throw at first to lead the bases. Cargnino then walked Roy Koberna to force in one run, and Tom Lubek followed with a single, which drove in Madison's final two markers.

Collinsville added two insurance runs in the fifth to end the scoring. When Madison pitcher Sam Dymms opened the last of the seventh with a single, Eddie Eaka relieved Cargnino and preserved his win. Cargnino walked three and fanned nine while Trotsky, who went all the way, issued four

Moose Lodge Wins Third In Row, 18-5

Carpenter-Troy (postponed, rain)

Having apparently stored up base hits in their bats over a two-week period of inactivity due to minor league games, two Southwestern Illinois Inter-City Baseball league clubs went to work on opponents yesterday.

Collinsville Boaters bombed two Sacred Heart pitchers for 28 hits and climaxed a big afternoon by scoring seven runs in the ninth inning as they humiliated the Granite City Red devils 18-5.

The Boaters were a delayed action outfit. The game was tied 2-2 after five innings of play, but the visitors tallied five times in the sixth inning to knock out Heart starter Phil Hogan, and then continued their barrage against Bob Burns, scoring three runs in both the seventh and eighth frames.

Moose Feasts, 18-5
Moose Lodge of East St. Louis took a clear-cut lead in the Red division with an 18-5 feast at White City. The victory was the third straight for the Moose, who remain as the only undefeated team in the division. White City lost its first, and dropped into a tie for first place in the 18B division.

Larry McCaskey of Moose continued to be the hottest thing in the league. He batted out a home run and two triples, swiped three bases and went six-for-six at the plate. One of his stolen bases was the piling of home plate.

Merced Funeral Home of Granite City, defending playoff champions, fell below the 500 mark in East St. Louis as McAteer Glass rallied for four runs in the eighth inning and carried a 9-7 win, despite being out-hit 16-13 by the losers.

Protested Game
It was victory No. 1 for the Glasmen this season. They had been rained out twice earlier. A protest was lodged following the Pocahontas-Maryville contest in Maryville, which went on only six innings before the rains came, and ended with the Braves ahead 4-2.

One contest, that scheduled between Carpenter and Troy, was rained out completely, and will be rescheduled later. Umpires at Maryville halted the Pocahontas-Maryville game with the Braves at bat in the fifth inning when a brief shower dampened the diamond. Pocahontas led 4-2 at the time, and Maryville players assumed that the game had been called.

It continued, however, until the home team Red Sox alleged they failed to furnish dry baseballs in the sixth inning. Umpires called the game at this point, awarding the victory to Pocahontas. The protest will be heard at the next league meeting May 28.

Branding Has Big Bat
Rich Branding had a fine day at the plate for Merceders, clouting a pair of triples, and a pair of doubles, but the local squad committed five costly errors, and neither starter Jack Buente nor Andy Angeleff could hold the McAteer offense in check.

Ed Hopkins paced the host club with a home run and triple. His round-tripper was the lead-off hit in a four-run McAteer seventh. Clyde Blankenship started on the mound, but left with a sore arm in the second frame.

Walt Wiegus finished up and got credit for the victory. Buente was charged with the loss. Charles Johannmeier continued to swing a hot bat for Merceders, getting three safeties, one of them a triple.

Page Supervisor of Recreation Program, Khoury League in Madison

Bob Page, 26, Madison, former baseball and basketball star and now a teacher at Louis Pasteur High School, again will serve as supervisor of the Madison summer recreation program. It was announced today.

Page, who hurled no-hit games while playing for St. Louis University and Sacred Heart baseball teams, will receive a salary of \$300 a month to be shared equally by the school district and the Madison city playground and recreation system.

One of his major duties will be to coordinate Khoury League boys' baseball activities, which have been steadily increasing since the league was originated in Madison three years ago.

Closely allied with baseball play for some ten years, Page was also a basketball player at Madison high school when the team gained a berth in the state tournament in 1952.

St. Louis U. graduate, a 1953 graduate of Madison high school, where he also pitched, he is a 1957 graduate of St. Louis University. At St. Louis U., he wore the uniform of the basketball Billikens and was captain of the baseball team, pitching a hitless game in his sophomore year.

Since 1958, he has been at Louis Pasteur and also serves as freshman football coach at Madison high school. In 1959, he pitched a no-hitter against Troy in Inter-City League competition while with Sacred Heart.

A sore arm in 1950 ended his career on the mound, and now he will be giving full attention to his new duties.

Page will be in charge of setting up the Khoury League schedule, and seeing to it that the ball diamonds are maintained.

Flyers Score Upset Over Aton Win HSA District Cinder Crown

Surprise, surprise! The East St. Louis Flyers, scoring heavily in the dashes and hurdles, were expected, showed unexpected strength in the relay events at Parsons Field Friday night and walked away with the HSA district track and field title, scoring 60 1/2 points to become the only double winner of the evening.

The Flyers won both the 880-yard and mile baton exchange events, which generally had been conceded to Aton's entry before the finals got underway at 8:30 p.m.

But Fred Cameron's athletes apparently are just nearing their peak, when the Flyers' coach, who was in the relay events earlier, set for a second place in the mile relay, and ran behind Lincoln of East St. Louis in the half-mile relay.

Neither Granite City nor Madison was able to qualify athletes during the preliminary events, which began at 4:30 p.m. Bunched well back of the 1-2 team finishers were Belleville with 24 1/2 points, Edwardsville with 23 and Centralia with 20.

The Maroons finished third, thanks to the showing of their entrants in the weights. East St. Louis Lincoln totaled 12 points, Roxana 10, Cahokia 8, Collinsville 23, Wood River 12 and Mascoutah 4.

Three Records Set
Aton's half-mile John Trowbridge, set one of three new records when he clocked 1:59.8 for the 880-yard run in 1:59.9.

Corey Hitting Star
Warriors Tie For Second In SWC Baseball Standings With 16-7 Win Over Tigers

Granite City high school's Warriors clinched a tie for second place in the final Southwest Conference baseball standings and ended the 1961 season on a high note in Edwardsville Friday afternoon as they hammered the host Tigers, 16-7.

Larry Corey, who picked up credit for the Redmen's 13th victory in this game, had a field day with the bat as well. Corey cracked out three home runs, which drove in six Waxey markers.

Lucky Seventh
Granite City closed seven times in its final at-bat of the season, making the seventh inning of the SWC contest the most productive single inning of the year for Coach Joe Federer's team.

The win was the eighth for Granite City against Southwest Conference opponents. Coupled with four league losses, it left the Warriors to the Wood River for second place in the SWC behind 9-3 East St. Louis. Edwardsville finished the season with a 7-5 SWC slate.

Edwardsville Nips Coolidge 6-3 In Baseball Wrapup

Coolidge junior high school's baseball squad closed its 1961 season on the short end of a 6-3 score in a game played against Edwardsville at Wilson Park Friday afternoon.

The Braves managed just six hits off winner Al Williams, three of them by Bill Karandjoff. One of his safe blows was a triple. Coolidge led 3-2 as the game entered the sixth inning, but the visitors scored twice in both that frame and the seventh.

Pat Harris went all the way for the losers, giving up nine hits and walking one. Williams struck out five and walked one. The Braves ended 1961 season with a 6-2 record under the direction of Coach John Tonoff.

Prather Reschedules Baseball Game Today

Prather junior high school's baseball contest with Wood River, scheduled last Thursday, has been rescheduled for 4 p.m. today at Wood River. Prather Coach Conrad Champion said this morning.

The Chiefs will play in Collinsville on Friday afternoon in a game which ends the regular season, but has a three-game intra-squad series planned for this week, also.

Sophs, Jayvees Wrap Up Season With 3-1 Weekend

Granite City high school's sophomores and junior varsity baseball clubs closed out a successful season over the weekend with relief pitching from Charlie Papp to decision Cahokia and ended the season with a 4-1-1 slate.

Playing in Cahokia Saturday, the junior varsity spotted the hosts a six-run first inning after they had scored four themselves, but Papp came on with two out in the first to blank Cahokia the rest of the way.

He pitched 6 1/2 innings of no-hit, no-run baseball and struck out 11, while Granite City scored once in the third, twice in the fourth and added a final marker in the seventh for an 8-6 victory.

The sophs opened weekend play on Friday by dropping a 3-2 decision to Belleville at Wilson Park. The losers scored both of their runs in the first to take a 2-1 lead, but Belleville tied twice off loser Perry Taton in the second.

But the local second year club came back strong in Cahokia Saturday, taking both ends of a win hill by identical 3-1 scores. Terry Kofahl pitched a four-hitter to pick up the win in the first game. The GCJS sophs managed seven hits. Jim Peppers had two of them and drove in two runs.

Bill Lierman went all the way in the second game, also pitching a four-hitter, and Glen Hoffman cracked out two hits, including a two-run double, to pace the winners' six-hit attack.

Coach Don Brownling's sophs combined for a 12-31 win-lost record this spring.

GC Judo Club Takes First Place Trophy

The Granite City Judo club, with most of its 20 individual entrants contributing points, captured first place and a team trophy at an AAU-sanctioned judo meet Saturday night in the St. Louis University field house.

The local club finished with 25 team points. St. Louis University had 18 and the St. Louis Judo Institute 17. Other team entries came from the Brentwood YMCA, Southside YMCA, McDonnell Aircraft Corp., the Ringdale Gym of St. Louis and the Aton YMCA.

In the finals of the third degree brown belt competition, Bill Hiding cracked Roger Bloodworth for the first-place trophy. Both represented the local judo club. In the first and second degree brown belt division, Bob Toulson and West Toulson of the GCJC finished second and third, respectively.

On Saturday, women members of the local club are scheduled to compete in Chicago, while the men's contingent is scheduled to compete in the annual Milwaukee invitational AAU meet Sunday, where women competition will also take place.

The club will travel to Detroit on June 3 for what promises to be the largest judo tournament of the year for the local group. Competitions will begin with the eight-year-old junior division and continue through black belt rankings.

West Junior High Of Aton Wins Own Invitational Meet

Only 4 1/2 points made the difference between fourth and second place finishes in the Aton Junior High school invitational field meet held Thursday afternoon at West JHS and won by that entry with a total of 5 1/2 points.

East JHS of Aton was second with 3 1/2 points. Edwardsville placed third with 2 1/2 points, fourth with 30. Painting Day Planned At Paddlers Swim Pool

The board of directors of Paddlers, Inc., met at the pool, 2121 Johnson road, Thursday evening for the next-to-last planning session prior to opening the pool on May 30. Paul Morris, president, conducted the meeting.

James Spinks, chairman of operations, announced that the pool has been drained several times and that plans call for acid-cleaning and repainting the pool, provided the weather cooperates. A mass "painting day" is scheduled for May 20, and all members who can assist that day are requested to do so, in order to have the pool ready for use on time.

Morris appointed Keith Parker, pool manager, and Bob Graf to investigate the possibility of installing a two-meter diving board. Homer Johnson reported that a male lifeguard is still needed and that two female guards have been employed.

Mrs. Donna Hogan announced that Mrs. James Spinks will be the chairman of opening day activities, and also reported the names of two new members, Allen Jesse and Mike Kavula.

Reports were heard from Richard Pittenger, Earl McMillan and Andrew Githoff. The next meeting will be May 25 at 8 p.m. at the pool.

Question Of Street For Proposed Shopping Center Might Be Resolved By Compromise

No one wants to stand in the way of a million-dollar-plus shopping center in Granite City for the very obvious reason that it would be a sizable community improvement, it would furnish construction and operating employment and, as far as the Press-Record is concerned, it would be a new source of advertising revenue.

However, a 100% public subsidy, such as is being proposed, is unjust, when other developers who create jobs and city tax income, too, are required to pay for their own streets. Also, we find it difficult to believe that a bonafide million-dollar-plus shopping center, designed to make a profit for the private builders and operators, would be on such thin ice that a \$97,000 street, paid for by the public, could be the only difference between going ahead with it or not.

But, if this should be actually true, then there is a precedent, established in the case of St. Clair avenue, by which the city might share in part of the cost. Further, if the proposed street is extended, as lately suggested, to become a "through" street connecting with West Pontoon road, this could be another reason justifying some sort of compromise arrangement.

When the proposed shopping center of the magnitude indicated reaches the stage of definite commitments, and money for the street is the only stumbling block, then the city might sit down with the developers, as well as the owners of other adjacent property to be benefited, and work out a reasonable—and realistic—cost sharing plan that does not abuse developers who have been paying 100% of their own way.

First Detailed Study Being Made On Area's Industrial Attractiveness

Current preparation of an industrial development brochure marks the first time there has been a move to assemble a comprehensive list of the many advantages this community offers to new and expanding industrial firms. It will afford an excellent source of reference material on the Quad-City area and its strategic location in the heart of the nation.

Assigning the gathering of data to Dr. Mary Megee of the local university faculty, the Chamber of Commerce is utilizing an experienced geographer and research analyst already familiar with this area's outstanding potential for industrial, business and residential growth.

By taking the lead to compile factual information on local conditions, facilities, services, sites, education, recreation and other subjects, the Chamber is providing a much-needed report. It should be of great interest to both present industries and new firms.

St. Elizabeth Hospital A Major Economic Asset To This Community

The Press-Record, possibly like many of its readers, has taken St. Elizabeth Hospital for granted these many years and gave scant thought to its impact on the economic life of this community until last week when, in connection with National Hospital Week, some very interesting figures were publicized.

We learned, as did Press-Record readers, that St. Elizabeth Hospital has the "longest shopping list in town," that it has a payroll running almost \$1,000,000 a year; that it has a multi-million dollar plant investment.

It seems abundantly clear now that the hospital is a substantial economic asset to the Quad-Cities, in addition to the more familiar role as caretaker of our physical well-being.

Report On Drainage Program Eagerly Awaited By Public

Committee reports often arouse little attention, but there is keen anticipation of the Citizens' Master Sewer and Drainage Committee survey findings to be released next week. Not for some time has there been such intense general interest in a civic proposal.

Eagerness for a program to solve Granite City drainage, disposal and pollution problems is understandable, since last week's rains proved once again that the present system is inadequate. We are hopeful and confident that the flooding will not be forgotten, and that the issue will remain in the forefront until a solution is outlined and approved.

There is a line in a once-popular song about a rain-damaged home, to the effect that "we don't need a window on such a sunny day." But, as everyone knows, the rain will come again. The time for a remedy is the lull before the next storm.

"Humility comes from calling your wife to tell her you left your lunch money at home in your apron pocket." — Pleasant Hill Weekly Messenger.

Cities' Endorsements Increase

Chance Of State Action On Lake Park

Due to the political facts of life, Democratic mayors of this area currently are in a key position to aid proposals under consideration by the state. It is encouraging to note that they have given strong endorsement to prompt development of Horseshoe Lake as a major state park, wildlife refuge and recreational area.

The mayors, other city officials and park study commission are aware of the immense value of recreational facilities to the Illinois Metropolitan Area. They know of the widespread local interest in the many facilities that would be made available under the \$3,504,350 park development program.

If the great need and desire for a state park at Horseshoe Lake can be conveyed eloquently to state officials and legislators, there is hope that some arrangements can be made for the financing. We are glad that local municipal leaders are exerting their substantial influence at Springfield in support of the park legislation.

Employee Longevity Records Reflect Credit To Employer And Community

What makes a good employee? The answer to this involves many factors but, one thing is certain, whatever they are, an employer is not apt to be a good employer if he has a lot of labor turnover.

On this assumption, General Steel Industries, Inc., fills the definition of a good employer. For last week, at their fourth annual service awards dinner, it was reported that 592 employees have been with the company 21 years or longer. This is an extremely high percentage of the company's total employment.

Other industries in the Quad-Cities, notably Granite City Steel Co., Union Star & Refining Co., National Lead Co., to name a few, also have many employees with long service records. Recognition of these men inevitably brings recognition to the companies they work for, and to the Quad-Cities as a place where men can spend a lifetime, rearing a family and productively engaged in the vocation of their choice.

"Too many men are like the farmer who did his plowing by turning over his field in his mind." — Pansy News-Palladium.

Group To Attend World Trade Week Luncheon

Eight representatives of the Tri-Cities Chamber of Commerce will attend a World Trade Week luncheon honoring the American Merchant Marine at noon Thursday at the Sheraton-Jefferson Hotel, St. Louis.

They are President Paul H. Lichtenberger, James L. Hamilton, John McBride, Edwin G. Schmidt, A. W. Morris Jr., Ernest E. Veil Jr., C. E. Townsend and Harlan Dobry.

C. D. Gibbons, president of the United States Lines, will speak on "The Midwest — Our Merchant Marine and Overseas Market." A panel discussion will follow on "Expanding St. Louis Foreign Trade," and there will be a question-and-answer period directed to government, financial and shipping officials.

Sponsors are the Mississippi Valley Association, Propeller Club and area business leaders, including C. P. Whitehead, president of General Steel Industries, Inc.

Traffic Delay Arrest
Venice police charged Wilbert Ware, 23, St. Louis, with disorderly conduct and drunkenness at 7:05 a.m. Friday on Main street, near Bremen road, where his auto allegedly was blocking a traffic lane and delaying other motorists. Officers said he was outside the car, arguing with a passenger inside the vehicle. He was held pending posting of bond.

25 Hospital Employees Given Service Pins

Twenty-five employees of St. Elizabeth Hospital were awarded service pins in ceremonies Friday morning to a close a week-long observance of Hospital Week.

Awards were presented by Dr. Melvin Freedman, president of the hospital staff physicians. Fifteen-year pins went to Miss Katherine Keller, an office worker, who lives at 2244 Adams street, and Mrs. Anna Sternberg, of the dietary department, whose address is 2475 Center street.

Ten-year awards were received by Mrs. Ella Jones, nurses' aid, 1907 Fourth street, East Madison; Mrs. Edith Massey, nurse's aid, Rural Route Two; Mrs. Esther Cottrell, housekeeping, 22014 State street; and Mrs. Donna Hand, laundry, 1638 State street.

Presented with five-year pins were Mrs. Shirley Wendel, Mrs. Dorothy Kewala, Mrs. Mildred Dugan, Mrs. Peggy Morrison and Mrs. Grace Pope, all registered nurses; Mrs. Mary Gerkin and Mrs. Margaret Sykes of the dietary department; Thomas Bligam, purchasing agent; Harvey McDonald, housekeeping; Mrs. Marie Cook, laundry; Mrs. Lizzie Brown, Mrs. Dorothy Kwikowski, Mrs. Elita Pinkerton, Mrs. Loretta Wilkins, Mrs. Gertrude Bundy, Mrs. Viola Rippy and Mrs. Rose Ropac, all nurses' aids; and Mrs. Judith Curry and Miss Sheila Portell, x-ray department.

Following the award presentations, Lorenzo Coin of the hospital maintenance department and Robert Arnold, strummed melodies of western selections on guitars while refreshments were being served.

Plaintiff in the lawsuit was James Andrews, by his parents, Mr. and Mrs. Thomas Andrews, 2303 Sunset drive. The suit contended that the boy, now 15, sustained partial disability in his right arm as the result of a fall on tile on the premises of the General Contracting Co., 2200 Monroe street, named as defendant in the case.

At 3 o'clock on 23rd street at Grand avenue, the right front fender of the eastbound auto of Chester F. Holtgreve, 65, Edwardsville, struck the door of the parked auto of Ruth Gerth, 2046 State street.

At 4:30 in front of 2740 Madison avenue, the right front corner of the blue bed of a northbound two-ton truck operated by Leo Marburger, 44, Route Two, Litchfield, Ill., collided with the door of the parked car of Thomas L. Maister, 22, of 2103 Mission street. An amber light on the truck was broken, and there was body damage to all vehicles involved in the two accidents.

OPEN LETTER TO EDITOR

May 11, 1961
Mr. C. E. Townsend
c/o Granite City Press-Record
Granite City, Illinois

Dear Mr. Townsend:

Your editorial on "Law on Intoxication Tests" was timely and well done. We appreciate such comments, especially from such prominent people. Thank you very much for your encouragement from this source.

Preferred Risk Mutual Insurance Company, Des Moines, Iowa, was founded on the idea that total abstinence from alcoholic beverages should be better insurance rates. We have proved this to be true during our 14 years of experience in insuring non-drinkers only. We offer auto, life, fire, hospitalization, and homeowners insurance to all non-drinkers at merit discount up to 25% of the base rate. We were able to pioneer the merit rating system that has now been adopted in one modified form or another by the "giants" in the industry. Although we may not be a "giant," we have reached our place as leaders in the insurance field. We are very proud of this honor and distinction.

Preferred Risk Mutual has spent approximately 14 million dollars and thousands of man-hours in the promotion of temperance. We feel proud in having had a part in the saving of lives through the temperance movement. We are enclosing in this letter to you copies of various pieces of literature which we use in the promotion of temperance to prevent drinking-drivers from committing murder on the highways. Drinking drivers are involved in approximately 50% of all fatal auto accidents.

The April, 1961 issue of National Underwriters Magazine ranked Preferred Risk Mutual 46 among all companies operating in the United States in respect to total premium written in 1960. Our growth locally has been tremendous. In less than four years of operation, our non-drinking policyholders are now approaching 1,000 in number. We feel there are many hundreds more who will come to be associated with us in the future.

To better serve these policyholders, we have established an all modern, fully staffed, downtown office at 19th and State Streets, Granite City, Illinois. We have just recently received a very positive testimonial from Robert (Bob) Spengler, whom we feel will add greatly to our success. We are very proud of the progress Granite City has made generally and are happy that we can share and contribute to this progress.

Sincerely yours,
C. E. BARR,
Southern Illinois State Manager

State Budget Outlined—\$25,000,000 For SIU Campus Here

(Special From Springfield)

Gov. Otto Kerner's biennial budget calling for state expenditures of \$3,493,737,000 has made its appearance in the General Assembly and was accompanied and followed by administration bills making the various appropriations for the next two years. One of the biggest items was the \$333 million for state aid to grade and high schools, plus \$85,631,740 for the state teachers college board.

The budget disclosed planned expenditures for highway improvement construction in the state for 1961-63 will total \$853,250,000 of which \$309,358,000 will be contributed by the state and the rest by the federal government as it finances 90% of the cost of interstate roads, and provides matching funds for state-federal road projects. The budget provides \$2,000,000 for the grade crossing protection fund.

Other budgeted appropriations for the two-year period included \$150 million from the state welfare improvement construction bond issue; \$195 million from the university improvement construction bond issue; \$100 million from the state welfare improvement construction bond issue; \$100 million from the state welfare improvement construction bond issue; \$100 million from the state welfare improvement construction bond issue.

revenue fund was replenished by \$15 million authorized in a new bill enacted last week by Kerner last week. The money is that which the law tells me to be transferred from the Service Recognition (Bonus) Fund to general revenue to meet current obligations. Another money measure signed by the governor appropriates \$1,194,000 to the state safety department for state police patrolling of state highways.

Also signed into law last week were bills which relieve state officials, newspaper reporters and individuals appearing in their own behalf from having to register and pay a \$5 fee for lobbying, and to permit railroad corporations to purchase and deal in their own share and those of other domestic and foreign corporations.

The bills appropriating the \$155 million bond issue for building construction at state schools of higher learning, included \$84 million for the University of Illinois at Urbana-Champaign, \$50 million for the new campus at Chicago, and \$21 million for its professional schools at Chicago and \$17,725,000 for the state welfare improvement construction bond issue.

SW Campus Included
Southern Illinois gets \$334 million to be divided with \$284 million for the Carbondale campus and \$50 million for the one at Edwardsville. The bond issue appropriations for four other state universities were as follows: For Eastern at Charleston \$7,435,000; for Western at Macomb \$8,050,000; for Northern at DeKalb \$15,625,000; and for Normal \$12,110,000. Early appropriation committee hearings are planned.

The House last week passed what its sponsors called a "tough" public assistance law, as requested by Gov. Kerner, though it had to get some Republican support to get 90 votes, just one more than the 89 required. Democratic Majority Floor Leader George Dunne, Chicago, was among Democrats who supported it. The measure now goes to the Senate where it is expected to get early action.

Under the bill the state public aid commission would be authorized to enforce its lien authority on the property of a public aid recipient if still living. It will be open to the public, where recipients turn over property to relatives in order to avoid its award to the state after their death. Republican House Whip Robert T. McCloskey, Monmouth, said the proposal is in accord with Governor's desire for "tougher" lien laws.

City Sales Tax Boost Sought
A highlight of the week was the appearance of Chicago Mayor Richard J. Daley and of mayors of other Illinois cities before separate Senate and House Municipalities Committee hearings on bills to permit cities to increase the present 4 1/2 city sales tax to a full cent without referendum. The House committee put 25-16 a "do" pass on the House measure but this was countered by 10-7 "do not pass" on the Senate bill by the Senate committee.

As a result Democrats are expected to push hardest on the House bill because of the bare control they have in that legislative branch. Hearings before both committees developed a number of wrangles, featured by some finger-pointing and shouting. A House uproar followed when House Committee Chairman John Ryan (D-Chicago) refused to recognize Republican Leader William E. Pollack, Chicago, when he rose to speak.

Chairman Ryan told Pollack "we've heard enough from you today," and told him "to sit down," then ordered the committee clerk to proceed with the roll call. The uproar included Rep. Peter J. Miller, Chicago

Republican who usually votes with the Democrats, rose to the speaker, and Pollack shouted at him "You sit down, Miller, you sit down." The speaker told him to sit down and proceeded to talk.

Powell For Senate
A sideline to legislative activity last week was the biennial Speaker's Dinner for the Illinois House of Representatives, which was featured by Mayor Daley giving support to a boom for Speaker Powell for U. S. Senate next year. It was apparently an off the cuff, but sincere endorsement. Daley said Powell "has every right to seek higher office."

"He would be a credit to the party and the state if he would serve on the floor of the U. S. Senate," said Daley as he stood alongside both Powell and Gov. Kerner as he spoke. "Paul Powell has been one of the greatest in the history of the Illinois House of Representatives—one of the greatest of statesmen."

Typical of the Democratic Party of the state. He could well seek re-nomination for the U. S. Senate. Beside Daley, Kerner and Powell, other at the dinner were Charles F. Carpenter, U. S. Supreme Court Justice; Treasurer Joseph D. Lohmeyer, Chicago, who is said to be considering transferring his voting residence to Springfield; and U. S. Representative Charles F. Carpenter, whose 1960 voting popularity has caused him to be tagged as "Mr. Republican of Illinois."

State Building Plan
The Senate last week passed and sent to the House a multi-million dollar state building revenue bond. The vote was 49 to three. It has the support of Gov. Kerner and the House.

its chief author is Sen. E. R. Peters, St. Joseph. One of the Senate's Republican "power-houses." Its passage by the House is regarded as certain. Peters calls the bill a "common sense way of financing huge capital improvements."

It provides for appointment of a seven-member authority to charter building construction improvements for the state, to be financed by revenue bonds which would be retired by state agencies using the new facilities and paying rent. Democratic Minority Leader Donald O'Brien, Chicago, who voted for it, said it duplicates the present method of the Illinois Army Board in financing construction of armories throughout the state.

The Senate last week rejected a bill favored by the governor. Aid Commission with a department directly responsible to him. The proposal had 25 "yes" as against 23 "noes" but it needed 30 to pass. Two Republicans voting for the measure were Mrs. Lottie Holman O'Neill, Downers Grove, and W. Russell Arrington, Evanston. Opponents claim the commission has protected the state relief program from political abuses.

Legislation which would eliminate a presidential candidate's chances of taking Illinois' entire block of electoral college votes was advanced to passage in the Senate last week. It provides a candidate would get an electoral vote for each congressional district he carries with the statewide winner getting a bonus of two votes. Sen. Robert Canfield (R-Rockford) said it would eliminate the present "winner take all" system.

Also passed by the Senate last week and sent to the House were bills to bar judges from practicing law while serving on the bench. One bill would apply the restriction to probate and county judges, another to all judges of the state. The House version by Sen. George Drach (R-Springfield) to require county and probate judges must be attorneys as a qualification to hold office.

Mayors Urge Support Of 'Hire Now' Week

The three local mayors today called upon local employers to "start their plants and businesses now to prove their faith in the free enterprise system."

Their appeal was made in a proclamation endorsing the nationwide "Hire Now" drive being spearheaded in the local area by the Granite City office of the Illinois State Employment Service. The drive also has been endorsed by Gov. Otto Kerner.

A slogan for the campaign is "When They Work, You Profit, Hire Now!" Mayors Davis, Maerz and Lee said the drive is being undertaken to fill existing job openings which in turn will create new employment opportunities. They noted that the time is propitious for a hiring push because many economic indicators show that the national economy is on the rise.

Suddenly this summer you're going to say... "We need Air Conditioning"

Don't let skimpy wiring stand in your way!

Many folks are getting ready for the "dog days" by installing air conditioning right now. Others, being human, are putting it off. But, after two or three humid, scorching days in a row, they'll decide they can't put it off any longer. They want air conditioning *right now!* But often they find their present wiring isn't adequate to handle the additional load.

So it's a smart idea to call your electrical contractor now to be sure your house wiring will handle the addition of air conditioning. In addition to plenty of capacity for air conditioning, adequate wiring gives you full power for all appliances. Increases the value of your home, too. (Call your local Adequate Wiring Bureau for free wiring inspection.)

Area Floods When Auto Hits Fire Plug

An area in the vicinity of West 22nd street and Jefferson and Harding avenues was flooded with several feet of water Thursday evening after a fire hydrant was broken off when struck by an automobile.

The accident occurred about 4:50 p.m. and the street department was summoned about 6:30 p.m. to erect barricades at the scene until repairs could be made by East St. Louis & Interurban Water Co.

Police charged the driver of the auto, Doris Anderson, 19, of 2620 Denver street, with driving too fast for conditions and operating a motor vehicle without a driver's license. She was freed on \$27 cash bail.

Police said she was driving east and was at the curve and Harding and Jefferson avenues, making a right turn when the wheels of the auto failed to straighten and the car crashed into the hydrant.

The accident was not serious, but police said there was considerable damage to the front of the auto.

Bankers Charge Branch Survey Not Conclusive

Interviews with 22 people out of a 1980 population of 22,445 in Madison county are the basis of claims of proponents of branch banking that residents here support branch banking in Illinois, the Illinois Bankers Association charged today.

A projected sample of the survey done for two giant Chicago Loop banks advocating branch banking in the state drew the scorn of opponents of branch banking, who called the survey "rigged."

It was presented to the Illinois House Committee considering branch banking May 10 as evidence of public support for the issue.

Donald M. Carlson of Elmhurst, president of the Illinois Bankers Association, which is leading the fight against branch banking, said that the "sample is laughable and the questions contrived to produce an affirmative response."

"The truth is there is no demand for branch banking in Illinois except from a handful of bankers motivated by a selfish desire to achieve an even greater hold on banking power," he said.

The Bankers Association and an overwhelming majority of bankers in every county of the state are opposing branch banking on the basis that it will cause mergers, lessen competition, promote monopoly and damage the best interest of both the general public and the banking system in Illinois.

The proposal is being supported by the Illinois Council for Branch Banking. It would enable private banks to establish branches under specified conditions.

Lower GC School Insurance Rates Sought This Year

Lower school insurance costs are being sought in the Granite City district, and an effort is to be made to achieve such a reduction this spring.

As one possibility, the school board has scheduled a report to be submitted by the local insurance exchange, which handles the sharing of policies among agents in the Granite City district, on behalf of the school board. The study has been underway since last August, and a report has been promised for the near future.

Details of this plan are to be submitted by the local insurance exchange, which handles the sharing of policies among agents in the Granite City district, on behalf of the school board. The study has been underway since last August, and a report has been promised for the near future.

Rates Regulated

The state regulates insurance coverage, and rates generally are identical. However, dividends vary and the exchange has reported that other savings may be possible, in view of the school's fire safety and the low incidence of school claims. Just how these savings can be obtained has not yet been explained in detail to the board, which has been awaiting the exchange's report with growing interest.

In the meantime, due to the anticipation of lower rates, the district has been paying only 60% of the insurance bills it owes. It is felt that this is enough to assure temporary continuation of the policies while leaving the door open to an adjustment of the total rate.

Reason for the board delegating the insurance distribution to the exchange years ago was to remove insurance from the "politics" of school board elections. If each agent had to fend for himself and could get an almost unlimited amount of business by being on good terms with the board, it is felt that at least some of the dozens of local agencies would become active on behalf of favored candidates.

Agencies share equally. Due to the regulation of rates, the argument for sharing of the business has proved. Various policies go to individual agencies, but the exchange supervises the program and sees to it that the overall business is balanced equally among all its members.

Board Member Homer Huter has expressed support of this plan but has been urging faster action by the exchange in submitting its rate reduction report to the school district.

Board Member Ralph Frickler has suggested the possibility of the board putting the insurance coverage out for bids from the agents.

In its discussions, the board has brought out that some mutual firms are not eligible under state law because of their size and because of regulations regarding assessable and non-assessable firms. Frickler says his firm qualifies and that he has been seeking school business since 1959. The insurance exchange does not include mutual companies.

5860 Saving Cited. As an example of the exchange's supervision of school insurance, J. W. Senef, its representative, has just notified the district of replacement of its boiler explosion policy.

"When we learned that there was to be a rate increase of 20% in boiler explosion rates effective May 1, we picked up your policy which became effective last July, canceled it and rewrote it in the same company for a new term of three years, with a saving to the district of about \$860," Senef advised the board.

Senef also is in charge of submitting the recommendation to reduced general rates.

See for yourself... why our B.F. Goodrich Silvertown gives you THE BIG EDGE in mileage and safety

NARROW EDGE THE BIG EDGE

Other tires have narrow shoulders, as this diagram shows. The rubber is concentrated in the "dead center" where the wear is least.

BFG Silvertowns have up to twice as much rubber in the outside ribs, where wear is greatest. That's The Big Edge and it means more mileage and safety for you.

Do you know where your tires wear out fastest? B.F. Goodrich scientists found that today's tires take a terrific beating on the outer edges of the tread, little in the center. To best this wear, they redesigned the tread of our famous BFG Silvertown. This new design is called THE BIG EDGE. And it packs more rubber into the outside ribs of the Silvertown than any other major-brand, first-line tire. Up to twice as much, in fact! That's why you get a big edge in mileage and safety. Yet our Silvertown costs no more than other first-line tires! Drive in today and see a dramatic demonstration of our revolutionary BIG EDGE!
